Another Tariff Boost?

Sir Thomas White says that the consumption of imported articles

"will not be curtailed."

In other words—the time has come

for another boost in the tariff. Big business is strictly the job.

A Plain Statement.

Mr. Gompers, president of the American Federation of Labor, declares that American organized labormen will restrain from participating in an international labor conference until democracy shall have been established in Germany. President Gompers speaks the view of workers who do not believe democracy can be promoted by talk.

The Issue Clearly Drawn.

That foodstuffs are to be bought by persons in order to bring home more money is a newspaper allegation, nor is it a public impression. It is a fact admitted and declared by the government official press to know that the war is being fought to be a fact. The Minister of War convicts the Ministers of having been blindly loyal to the operations of the profiteers; of having actually condoned the profiteers of the public. He also by the same disclosure confronts the Ministers with the alternative that they must take the profiteers in hand or hereafter stand openly as their protectors.

War Time Extravagance.

Hon. F. C. Carwell, the new Minister of Public Works, says the Canadian Government has this year to provide five hundred million dollars for the war and one hundred and seventy-five millions for purposes other than the war. In 1913, the last year preceding the war, the Canadian total expenditure rate was

the unprecedent sum of one hundred and forty-four million dollars, or about the equivalent of three times economy on the part of a Government whose expenditure for ordinary purposes has gone up 20 per cent, at a time when the public are called upon to sacrifice, to give up luxuries, and their interests in order to provide money to save the country from destruction.

Discredited as Peace-makers.

The British labor men in their recent convention made a deliberate effort to work on the class sympathy and influence of German working people to induce them to continue their Government to do their war aims. If that were done would it bring real peace any day, or would it only increase the desire of the Germans to bring us into a trap? What claims the present German Government make to be supposed to speak the truth as to its war aims, except as those which have been agreed in and across the map of Europe? If the German people are minded to talk peace, the first condition is that they indicate their present and established position in the world by overthrowing the war-makers and replacing them by spokesmen whose word could be accepted as worth something. Until a revolution takes place, either by internal action or by outward force, it would be suicidal for the Allies to have any dealings with Berlin, which pretends to be a German Government which might invite them to negotiate. An organization that has struck for world power and the ruin of civilization is to be trusted only when it has been smashed.

Misdirected.

The energy that is being spent in Canada advising other people to save food were motivated for real food production, there would be less need for food saving.

A Precedent.

The town of Cobalt proposes to establish a civic piggy bank. If the pig could save a large sum the general case which would be made Cobalt famous the Allied meat supply will be noticeably enhanced.

A Possibility.

The Ottawa Journal News thinks that the most shortsighted grows more acute provincial governments throughout Canada might well consider the temporary abolition of close seasons for various kinds of game. The result of this would be any more "acute" the game is likely to be slaughtered regardless of law.

Not Trusted.

Even the newspaper friends are probably losing confidence in the win-the-war pretensions of the Ministers. The Ottawa Journal and Toronto Globe declare that the Government has not abolished the piggy bank. The result of this seems to be united in the to the Ministers to protest the public against the attempt of the military companies to put through the increase in freight and passenger rates without justification.

Slamming the Books.

The newspaper which bought the election with the slogan "Quebec should be made to do its duty" are now slamming Quebec because of the people that have been induced to submit without compunction to the enforcement of the Military Service Act. The Government, that is to say, promises to support the promise to coerce Quebec, but Quebec is now ensured that the Government is not coercing it.

Penalizing the West.

The counsel for the western provinces, who were instrumental in the passed increase of freight rates, pointed out that before the consolidation of the C.N.R.—that is, from Port Arthur to the prairies—a surplus of more than a million dollars per year. After consolidation there was a deficit on the whole concern. The proposal involved a rate increase is based on a surcharge on the deficit to make up the deficit on the operation of the C.N.R.'s unfortunate extensions in Eastern Canada.

A Doubter.

An exchange, which supported and supports the Union Government, explains that Mr. Hanna failed as food controller because he was not able to impose the conditions of divided responsibility and "Governmental red tape." That is to say, Mr. Hanna really desired to control the food supply in the Western divisions of the C.N.R.—that is, from Port Arthur to the prairies—but he was prevented doing so by the Ministers. The man may or may not be true. Being alleged by a newspaper reporter, it is in the nature of a challenge of the win-the-war aims upon which the adherents appealed for and received popular support.

A BRIGADE.

From Feb. 2—Garrisonian battalions are enlisting throughout Italy. They range from young men to aged veterans. Their independence under the great head of the nation is the formation of this body of volunteers which will be commanded by Gen. Peppe Garibaldi.

The rights of the citizens on this frontier are violated by a man for a man who has lived in the States for some time past, and as far as Edmonton a child as a father.

C. W. LEE.

EDMONTON, ALBERTA, TUESDAY, FEBRUARY 5, 1918.

Dangerous Drifting.

Was the decision to refuse appointment as fire chief to any member of the fire brigade lightly or seriously taken? If so, then the members have been deliberately deprived of the taxpayers and property owners are entitled to know. If lightly taken—that is there were no specific reasons—it should not have been taken, but should have been taken at the earliest delay.

Fire will not wait, fire insurance companies will not wait. Edmonton owners saved thousands of dollars in insurance premiums in the past year because the insurance companies had confidence in the efficiency of the brigade. Under any possible representation we cannot expect to have that saving continued, so that conditions satisfy conditions as they were before. The insurance companies are a combine. The city is in their hands, so far as fire insurance is concerned, and they will put the rates up or down as they please. It would be childish to think that they will not protect themselves under present circumstances either by increase of rates or by reducing the amount of insurance. The result of this certainly must give place to certainty or the owners of buildings will have to pay immediately and directly increased insurance premiums.

Building property is entitled to certain minimum and adequate fire protection. If with or without good reason the city council has decided to let the brigade go, then it is in the hands of the city council to see that the brigade is filled up and efficiently reorganized with out delay. The old brigade walked out early on Friday afternoon. There is no need to search for a fortunate without mishap. So far there has been no definite stand taken by the council in support of the brigade. The city council, however, did decide that it was to support the new chief and the new brigade that it would organize if the old fire men refused to take employment with the new chief. Will there be a committee of enquiry? But so long as there is no explanation of the refusal to fill the position by promotion and no declaration that the new chief and the new brigade will be supported by the council there is no reasonable chance of building up efficient fire protection.

The situation is one that demands attention. To see that the brigade is filled up after day without adequate fire protection is asking too much of even a kind Providence. Providence helps those who help themselves.

"Do help you appreciate that in having married a woman with a large hearted heart?" "No, sir, and I hope she'll never hear of it again from her father."

Faul Value Required

"Suppose you want rubber tires?" said one old gentleman who was inspecting several vehicles with a view to buying.

"No, sir," said the prospective purchaser. "I only talk to you about something."

"You don't mean it? Well, I suppose you're very fond of him?"

"Well, you send me a wire all the time."

"What do you send me back?"

"Cant' we used him four days already?"

Quote Observed

A class of students of M. C. Rogers were put through a preliminary examination by Prof. O'Brien when it came to Patrick O'Brien's turn, the sergeant put the following question to him: "What would you do if you fell down in a drunken fit, how would you react?"

"I would not treat him at all," he would consider that he had enough to do.

A young sailor on board a whaling ship wrote home to his mother: "It made me sick to see the way the crew treated the old men floating about and the submarine which might be lurking near."

It was the captain's duty to look after the old men, but the crew had not been told of this.

91 RINKS TAKING PART IN THE LARGEST BONSPIEL EVER HELD WEST WINNIPEG--ALTA. RECORD

Competitors from All Over the Province and Other Parts of the West—45 Visiting Rinks—Points Competition for Players Not Entered as Members of Binks

Mostly one rink, coming from all parts of the province, together with several from other provinces, are entered in the first annual bonspiel of the Western Curling Association, which opens this morning. Rogers of Athabasca was the last to enter and will be the host club for the Grand Challenge draw. It will participate in the competition.

It will be the largest bonspiel ever held west of Winnipeg and by far the largest ever held in Alberta.

At 45 visiting rinks, last night the hotels were crowded with hunky, muscular men, who, according to "tanks" who talked of nothing else than curling, were keen to be on the draw.

The draws were all completed last night.

Points Competition

Has been a popular feature among curlers as members of clubs entered in the bonspiel may enter the points competition for a \$500 50 cents entrance fee, providing they are not members of the club with the Alberta Curling Association.

John Bates and Bob Harbord, the former veteran outshiders and the present stars of the game, signed up with Pat Flaherty on the Mobile team. They ought to prove a considerable factor in the standing of that club next season.

Lounging Larry Doyle, who will return to the Gorts as a result of the draw, has been a favorite with the public ever since he won the New York City bonspiel.

Spurred on in salary, the man of the week is Walter Johnson, who will have to come down a peg in the size of the site of his weekly pay envelope. It's tough, Walter, but war is war.

The draws were all completed last night.

If Canada Produces to Limit Rationing Not Necessary Says H. B. Thomson, Food Controller

Declares the Panacea of Fixed Prices Has Failed—Fixing Profits Another Matter—\$2,000 Retail Grocers Operating in Dominion To Be Placed on License

OTTAWA, Feb. 4.—A delegation by H. B. Thomson, Canadian food controller, that it would be an exceedingly difficult matter to introduce a card rationing system in a country like Canada, where there is no address made by the food controller for a general gathering of the university students.

We have had many letters from people in Canada asking whether it is true that Canada puts up rationing and that it must be centralized in some equitable way. Now while rationing systems may be workable in countries where there is a general full control of supplies, such as would be the case in a small town or other large centres, they would not be practicable upon a Dominion wide basis, and especially in two districts. It would be difficult to control the production of each item over. Mr. Thomson was asked how he would propose to limit rationing among the farmers.

"I trust we can get to the limit I trust it will not be necessary," said Mr. Thomson. "The people are getting along very well. The statements from Baron Rhondda, are probably true. Spring is approaching. The greater campaign should be launched soon."

On the price of fixing prices, he said: "We are trying to control that and it has been done in a number of localities. The panacea of fixing prices has not been found. Fixing profits would much of the cost that they can't be placed on license."

BIG INCREASE IN ASSETS OF DOMINION BANK

Now Stand at \$100,000,000—Phenomenal Jump in Deposits Indicate Prosperity

The total assets of the Dominion Bank at the close of the year 1917 were \$92,500,000. The total assets at the end of 1918 were \$95,500,000. The increase of 1918 and 1919, however, was an all-round expansion in the note circulation. A large increase in the note circulation. The bank deposits rose more than thirteen million dollars in the last year.

Figures of the note circulation are now available for the first time. The total issue is now \$100,000,000.

The manager in which these increased funds were disposed of was such as to indicate that the bank had a fairly strong position both for ready cash and for long term loans. In fact, not only the whole of the 1918 and 1919 new funds but also about \$35,000,000 of old funds.

A year ago in current loans are now \$100,000,000. This is a large increase in quick assets of the bank.

These quick assets are now 60 per cent. of the liabilities to the public, whereas a year ago they were 50 per cent. The strictly cash items represent a large increase in the bank's liquidity, whereas a year ago they total quick assets now amount to 60 per cent.

The reduction in current loans from the bank is due to the fact that the prosperity condition of the farmers with whom the bank deals does a large part of its business.

Thanks to the fact that a large proportion of the bank's assets are now productive of a good revenue as a result of the Canadian government securities (federal and provincial) which the bank absorbed in 1918, the profits of the bank from the profits also show a very satisfactory increase.

Figures of a trial audit conducted to date show an increase of \$10,000,000. An increase of 10 per cent. and half for the payment capital, donations and personal gifts given to the bank. The writing off of \$200,000 from the bank's assets in 1918. Altogether the year 1917 was one of great success, the general manager, Mr. Thompson, and the whole staff may feel proud.

Behind the Footlights

WATCH YOUR STEP PULSATING WITH WAVES OF RAGTIME

(By Bulletin Dramatic Critic)

An elongated young man who answers to the name of Harry, is one of the tall youths who were the latest creations in the magazine clothing trade. He is the star of the musical comedy "Watch Your Step," the Irving Berlin musical comedy which opened its engagement at the Empire theatre last night. His name is Harry, but that has nothing to do with it. It is his figure and the fact that he is a ragtime dancer that bears the name of two-million dollars—if you marry him. He is a dancing master, but that means a dancing master of the big sort of musical show which made New York famous. Harry is the star of the musical comedy "Watch Your Step" which brought storms of applause at its opening performances. Not body but Harry could have written it.

"Watch Your Step" has good looking girls, good music, good dancing, etc. The girls wear the latest thing in hats, coats, dresses, stockings and satin parades in the production that must have cost a vast amount in it. The girls are dressed in the improved ragtime order. The elongated Harry is the star of the show, and the numerous dancing numbers. His blue blouse and white sailor cap are the chief attractions. See him nobody but Harry could have written it.

"Watch Your Step" has three acts and a total of seven scenes. Everyone from Washington Square attire to evening gowns, a woman over 60 years old, a girl of 16, a woman of 20, a girl of 18, a girl of 14, a girl of 12, a girl of 10, a girl of 8, a girl of 6, a
